HMOGPLV implementation

Wednesday, October 9, 2024   10:22 AM

Python version: 3.7
Tensorflow version: 2.10.1
Tensorflow_probability version: 0.18.0

```
ssh rynhpcpw009 -p 2022
module load anaconda3
source activate
conda create -n 'gpflow-214-p37' python=3.7
Conda activate gpflow-214-p3

conda install ipykernel
ipython kernel install --user --name=gpflow-214-p37
```

module load jupyterhub
jupyter-lab --no-browser --ip=$(hostname)

python -m pip install gpflow==2.1.4

Will install tensorflow 2.11.0, tensorflow_probability 0.19.0
